## Ferromagnetism and increased ionicity in epitaxially grown TbMnO<sub>3</sub> films

Rubi, D.; de Graaf, C.; Daumont, C. J. M.; Mannix, D.; Broer, R.; Noheda, B

*Published in:*

Physical Review. B: Condensed Matter and Materials Physics

*DOI:*

[10.1103/PhysRevB.79.014416](https://doi.org/10.1103/PhysRevB.79.014416)

**IMPORTANT NOTE:** You are advised to consult the publisher's version (publisher's PDF) if you wish to cite from it. Please check the document version below.

*Document Version*

Publisher's PDF, also known as Version of record

*Publication date:*

2009

It has come to our attention that there was an error in our paper. The error is in the sentence that starts at the end of page 2 and ends at the beginning of page 3.

In the published version it reads: “This suggests that the transition observed at  $T^*$  is ferromagnetic-like,” while it should read: “This suggests that the transition observed at  $T^*$  is ferrimagnetic-like.”
